THE WEATHER REPORT

Forecasts and Records of the
Last Twenty-four Hours.Official Record and Forecast.—Washington,
May 16.—Pressure continues high over practically all districts east of the Rocky Mountains,

with the highest readings over the Ohio Valley and the region of the Great Lakes. The temperature is relatively low over the Rocky Mountain and plateau regions. This pressure distribution has been attended by local showers and thunderstorms in the west Gulf and middle plains states and the Rocky Mountain and plateau regions, and fair weather in other parts of the United States. The temperature is above normal in the Northwestern States, and it is near or below normal elsewhere. There were no decided temperature changes in any part of the country during the last twenty-four hours. In the Atlantic and east Gulf states, the region of the Great Lakes and the Ohio Valley the weather will remain fair, with moderate temperature, during Sunday and Monday. In the Mississippi Valley it will be overcast Sunday, followed by local showers Monday, while over the west Gulf states, the plains states and the Rocky Mountain and plateau regions unsettled weather Sunday and Monday will be attended by local showers and thunderstorms. Temperatures will not change decidedly in any part of the country during the next two days.

Winds for Sunday and Monday: North and middle Atlantic, light to moderate variable; southern Atlantic, light to moderate variable; east and southeast; west Gulf, fresh east and southeast; lower lakes, light variable; upper lakes, moderate variable, mostly south and southwest.

Forecast for Special Localities.—Eastern New York, New Jersey, Southern New England, Delaware, Maryland, the District of Columbia, Virginia and Eastern Pennsylvania, moderate to heavy showers, to-day and to-morrow, light variable winds.

Northern New England, fair to-day and to-morrow, light variable winds.

Western New York and Western Pennsylvania, fair to-day and probably to-morrow; light variable winds.

West Virginia, fair to-day and to-morrow.

Local Official Record.—The following official record from the Weather Bureau shows the changes in the temperature for the last twenty-four hours, in comparison with the corresponding date of last year:
